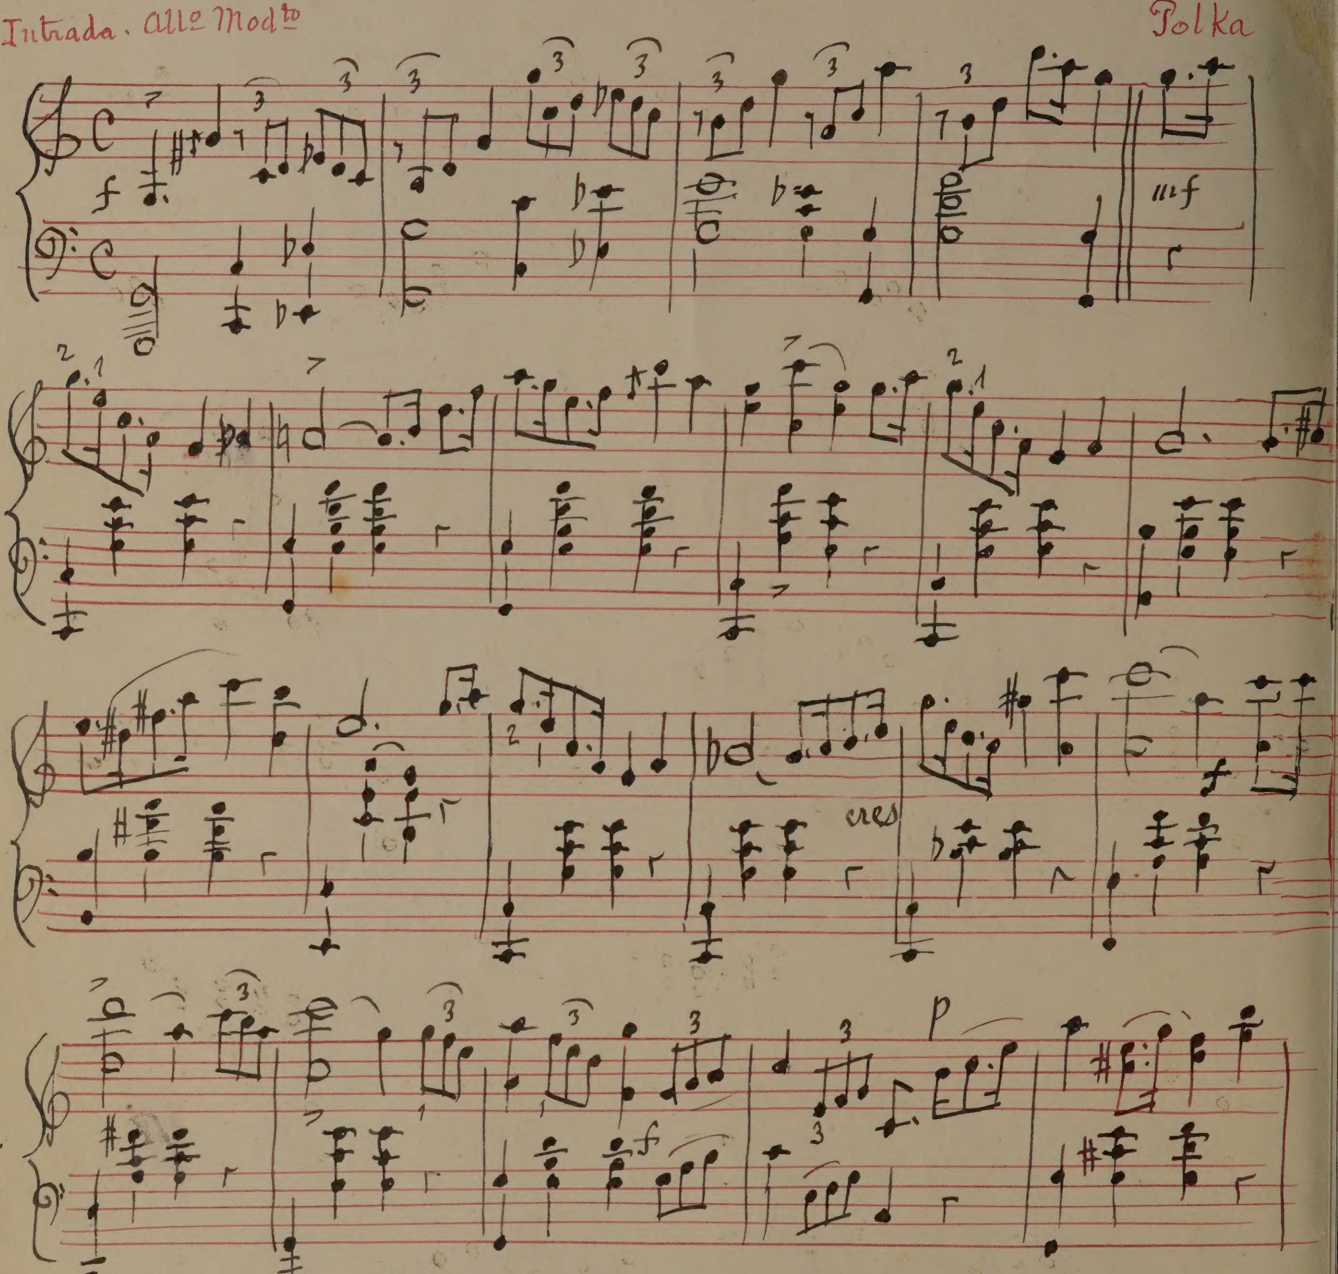
"Tipperary" Polka ----- Harp ~



UPB

Dear Mr Morly — I send you the best I can! Wishing it were more! Please remember that this Polka is written at 78 years, in solitude discomfort weakness & total want of Piano or Harp or hearing music. Well handicapped. So, dont take it as a fair sample of my talent, only of my feelings & wishes which are ever favorable to you & yours. If you only saw the wretched "table" I have to write on! & I cut & rule my own paper K.

Best wishes! H. B. Fabrini

Do you see that Providence (whom fellows like you accuse of muddling everything!) has already fearfully avenged on the putrid German Scum their atrocities committed on French women. The Cossacks are not only outraging Germ. women but poisoning them with their filthy blood. Horrible! & the K. (dear friend of his Lieber Gott!) began this & will have to drink it to the dregs.

Amen
